At Camp Mishpacha, your child will enjoy outdoor games, water play, nature activities, gardening projects and much more in our beautiful outdoor setting. For many years, Camp Mishpacha has provided children a unique opportunity to nurture friendships that will last a lifetime. In fact, many of our college and high school aged staff were campers themselves! Our spirited and energetic staff will help your child to have the best summer.

- Outdoor nature-based curriculum
- Planting & harvesting in the Gan garden
- Sensory & art activities
- Innovative, instructive educational themed weeks
- A focus on social emotional development
- Daily new experiences and fun surprises
- Special Shabbat programming
- Summer birthday celebrations
- 4th of July parade
- Small COVID-conscious camp groups

With our outdoor tent park and exciting flag pole circle, we are able to have fun in so many ways! Camp provides lots of opportunities for children to develop social skills, learn Jewish prayers and customs, participate in a myriad of diverse projects and more! Arts and crafts, singing and stories, dramatic play, water play adventures, nature and special events are only a few of the many activities that keep Mishpacha campers busy this summer. We'll be emphasizing teamwork and sportsmanship as campers work on their motor skills in sports time each session.

Camp Mishpacha Sessions

Aleph Session: 2 weeks - Tuesday, June 7 - Friday, June 17

Let the Fun Begin! The first week of camp is always exciting. We have special activities planned to make this week extra special as we ease into summer.

Ooey Gooley! Who doesn't like to get messy? Especially when a parent doesn't have to clean it up! Shaving cream, sand foam, rubbery goop oobleck, rice and ice, squishy bags and more will keep campers busy this week. It will be a sensory bonanza! Messy play is important for young children - giving them endless ways to develop and learn.

Bet Session: 4 weeks - Monday, June 20 - Friday, July 15 *No camp Monday, July 4*

Buggin' Out! Ladybugs, beetles, and bees, oh my! To a preschooler, all crawly things are creepy and cool at the same time! We will use our magnifying glasses and zoomscope to learn all about bugs and insects.

Stars and Stripes! We will decorate and have our annual 4th of July celebration "Camp Mishpacha" style! Come dressed in red, white and blue on Friday, July 1st for the parade!

Heads Up! Ever wonder how airplanes fly or how a hot air balloon stays in the sky? Wonder no more! We will make and fly kites and discover anything else that is up in the air.

Five Senses in Five Days! Sight, smell, touch, hearing and taste. The five senses help children explore the world and make sense of what's around them. We have activities, projects, snacks books and more to help children learn all about the five senses!

Gimel Session: 4 weeks - Monday, July 18 - Friday, August 12

Mishpacha School of Rock! Get ready to rock on! We will be making our own instruments, learning new songs, and dancing to the beat. We may even go on tour!

Hawaiian Hullabaloo! Leis, grass skirts and Hawaiian shirt are required. Get ready for volcanoes, beach volleyball and surfing. Aloha!

3,2,1... Blast Off! Get ready to suit up and become an astronaut and shoot for the stars! We will capture young imaginations with space-themed educational activities. Walking on the moon, playing with moon sand, creating mission control panels and more will keep the kids engaged as they build skills across multiple disciplines!

What Day Is It? Movie Day? Bike Day? Wet & Wild Day? Game Day? Camping Out? These are some Camp Mishpacha favorites all in one week!

Dalet Session: 2 weeks - Monday, August 15 - Friday, August 26

Become a Lab Rat! Put your goggles and lab coats on and get ready to do some experiments to learn about the senses, insects, colors, magnets and more! Children will be "hands on" and will never hear the words "DO NOT TOUCH".

Boxes, Boxes, Boxes! Put your creative thinking caps on and begin constructing! We will be making box forts, cardboard boats, box cars and anything else we can imagine. We will use our fine motor skills to create and our large motor skills to pretend!
