

Do you love Israel? Do you believe that it is important for Israel to be a home for all Jews? A democratic, open, pluralistic society where religious freedom is guaranteed?

If you have answered yes, then it is time to “Make your Voice Heard”! The Historic Kotel (Western Wall) agreement, signed in January and approved by the Israeli Government, has yet to be implemented. Without our help, it may never move forward.

Once implemented, this agreement will creatively solve one of the more painful disputes between Jews in the last few decades. It will also be **the first official recognition of all streams of Judaism** in Israel, helping us to solidify religious freedom in our homeland. We are not too late!

Our family in Israel has asked us to raise our voices with theirs, to make our voices heard, and remind the leadership that we are one people, that Israel is our home, and that we want the Kotel Agreement implemented immediately!

With one click you can send a personal e-mail to the Prime Minister of Israel, the President of Israel, the Speaker of the Knesset, and to the Minister for Diaspora Affairs!

We are at a tipping point in Israeli history. We must act now to insure that Israel remains a home for all Jews! Take action. Get your friends, family, and congregants to join you. Show them that our **Love of Israel** is stronger than baseless hatred. We are one family, one people, with one G-d and one homeland: Israel.

Make Your Voice Heard Today!
