

Ways You Can Help: April 25, 2026

Though the number of ICE agents is lower than it was at the beginning, there are still many more than before. Many of our neighbors are still being targeted, many are suffering from post-traumatic stress, and immigrant-owned businesses are having trouble making ends meet. There are ways to help.

We have been hearing that there is a great need for rent support.

Hennepin County provides rental assistance and has volunteer opportunities:

<https://caphennepin.org/rental-assistance/>

Our local food shelves also provide rental assistance and would appreciate your help:

Help keep food shelves operating at full capacity

Help keep food shelves operating at full capacity. Consider supporting [The Food Group](#). They are the food bank for Hennepin County and provide support and advocacy for all Minnesota food shelves. During this crisis, they are offering critical support and guidance to the many feeding efforts that have emerged.

Thanks for your interest and your help,

Adath Antiracism Committee
